MAINTAIN OR RECAPTURE YOUR
EDGE, FINE-TUNE YOUR MUSCLES,
OR INCREASE YOUR ENERGY
LEVEL WITH CHOSEN VITAMINS
BLACK LABEL SERIES TRIBULUS
SUPPLEMENTS.

PRODUCT OVERVIEW

Are you looking for a natural way to increase muscle mass? How about firing up your libido? If your response is "yes", then Chosen Vitamins Platinum Series Tribulus Supplement is our answer. Extracted from the perennial plant, Tribulus has been used by Chinese and Indian cultures for centuries for medicinal purposes. Now modern science has discovered that it can be utilized to help fortify muscle mass and increase testosterone production. Not only does the Black Label Series provide premium ingredients to enhance your male physique, it can also help treat certain kidney ailments, such as kidney stones and painful urination, with its diuretic properties.

HOW DOES IT WORK?

Used in traditional medicine in Indian and Chinese cultures, Tribulus has been shown to enhance sexual behavior by stimulating androgen receptors in the brain. The active chemical in Tribulus responsible for its sexual stimulation is speculated to be protodioscin (PTN), a steroidal saponin compound that has demonstrated pro-erectile effects in isolated tissues and aphrodisiac behaviors. In some studies, Tribulus extract has outperformed testosterone cypionate, a synthetic version of testosterone, in length of sexual activity and "staying power."

OUR CERTIFICATIONS

Chosen Vitamins goes to great lengths to ensure that every supplement that leaves our FDA-registered facilities is the best product available. Our NSF Good Manufacturing Practice (GMP) certification proves the fact that we are committed to meticulously testing our products to maintain consistent quality so our customers get the best products - one bottle at a time.

GMP CERTIFIED

Every product that leaves our facilities holds up to Good Manufacturing Practice guidelines that ensure top-notch quality. These guidelines promote consistent production processes that make sure every bottle is as equally potent as it is powerful.

FDA REGISTERED FACILITY

All of our products and facilities are held to the highest standards and operate in full compliance of FDA rules and regulations. We are proud to say that our top-quality vitamins are produced in FDA-registered facilities, where they exceed all the limits of testing and inspection.
