PLATINUM RED LABEL SERIES

RASPBERRY KETONES

THE ESSENCE OF RASPBERRY
NATURALLY LETS YOU MELT
AWAY FAT AND EVEN PREVENTS
WEIGHT GAIN WITH CHOSEN
VITAMINS PLATINUM RED LABEL
SERIES RASPBERRY KETONE.

PRODUCT OVERVIEW

Everyone suspects that eating fruit has its benefits, but now science has discovered that Raspberry Ketones, the chemical compounds that give raspberries their fragrance and flavor, may be a natural weapon against weight gain. Studies have shown an increase in metabolism and weight loss in subjects taking the supplement on a daily basis. Dr. Oz acknowledged the effectiveness of Raspberry Ketone by calling it "a miracle in fat-burner in a bottle." Most potent in its extracted form, Raspberry Ketone is recommended for weight loss, increasing lean body mass, and treating obesity. Get this natural fat-burner today and harness the natural power of the berry with Chosen Vitamins Platinum Series Raspberry Ketone Supplements.

HOW DOES IT WORK?

Raspberry ketone is the chemical extracted from red raspberries that give them their odor and flavor. Primarily used to provide scent and flavor to an assortment of consumer products, such as colas, candy, and cosmetics. Recent research on the chemical shows it may increase metabolism, accelerate weight loss, and affect a hormone in the body called adiponectin, which regulates glucose production.
