

PLATINUM SERIES

GREEN COFFEE

MAXIMIZE THE METABOLIC
ENHANCEMENTS AND HEALING
BENEFITS OF GREEN COFFEE
WITH CHOSEN VITAMINS
PLATINUM SERIES GREEN
COFFEE EXTRACT.

PRODUCT OVERVIEW

For centuries, the healing power of green coffee has been known, but now science is starting to take note. Even Dr. Oz has called it "one of the most important discoveries we've made to help you burn fat faster." Green coffee is noted for containing high levels of antioxidants that fight free radicals and demonstrate healing properties. But the real secret of green coffee is chlorogenic acid, which stimulates your metabolism and enhances weight loss. Now you can maximize all of the potential healing properties and metabolic stimulation of green coffee with Chosen Vitamins Platinum Series Green Coffee Extract.

HOW DOES IT WORK?

Green coffee beans contain an assortment of powerful antioxidants and, most importantly, chlorogenic acid, which directly stimulates the human body's metabolism. Many of these beneficial ingredients are lost in the roasting process so taking an extracted version is highly recommended to maximize its effectiveness. Green coffee bean extract also helps aid blood sugar processes, which may lower blood pressure as a result.

OUR CERTIFICATIONS

Chosen Vitamins goes to great lengths to ensure that every supplement that leaves our FDA-registered facilities is the best product available. Our NSF Good Manufacturing Practice (GMP) certification proves the fact that we are committed to meticulously testing our products to maintain consistent quality so our customers get the best products - one bottle at a time.

GMP CERTIFIED

Every product that leaves our facilities holds up to Good Manufacturing Practice guidelines that ensure top-notch quality. These guidelines promote consistent production processes that make sure every bottle is as equally potent as it is powerful.

FDA REGISTERED FACILITY

All of our products and facilities are held to the highest standards and operate in full compliance of FDA rules and regulations. We are proud to say that our top-quality vitamins are produced in FDA-registered facilities, where they exceed all the limits of testing and inspection.
